

PROJECT PARTNERS

AREA OF BUSINESS

A global trade fair for process technology, packaging and integrated solutions for the Food & Beverage industry.

MAIN ACTIVITIES

- Promoting and showcasing cutting-edge technologies for food and beverage processing and packaging, focusing on the entire supply chain.
- Facilitating structured meetings between companies, international top buyers and decision-makers to encourage technological investment and export growth.
- Organising workshops, live demonstrations and highly technical events to support the development of more efficient, safer and higher-quality production models.
- Developing some of the sector's leading international incoming programmes, involving foreign buyers directly in the purchasing decision-making process.
- Building stronger connections between industry, technological innovation and global markets by forming strategic partnerships and holding a globally renowned trade fair.
